3-6YRS MATHEMATICS WORKSHOP
COOROY QLD  8 & 9 JANUARY, 7 & 8 FEBRUARY 2015

Education .... should no longer be thought of as imparting knowledge, but must take a new path that seeks to release the human potential within us all.  

Maria Montessori

This interactive Workshop is open to teachers, classroom assistants, students and anyone interested in teaching 3-6yrs using the methods and materials based on Dr Maria Montessori’s philosophy. There will be detailed instruction and opportunities for practice with the specialized equipment which assists the child’s understanding of Mathematics for this age group. Sessions will also provide opportunities for gathering and sharing information and ideas.

The Montessori approach

• meets the tendency for repetition
• provides essential skills
• builds confidence
• assists children to independence

The presenter, Eva Nislev, has worked with many different age groups, from early childhood to mature age students. Her experience draws on a wide variety of roles ranging from Montessori centre director, early childhood lecturer and tutor, workshop presenter and education consultant to a number of different tertiary organisations. She has presented at Montessori conferences both in Australia and overseas. Eva holds an MEd. (early childhood), Dip.Teaching (infants/primary), Cert. in special education, Dip.Ed Montessori (MWEI (Aust) 3-9 yrs), Dip.Children’s Services and has worked in a variety of environments, including state schools, special education schools, tertiary institutions, Montessori early childhood programmes, and various government departments. Eva currently lectures in education at two universities and has recently submitted her PhD.
