Education … should no longer be thought of as imparting knowledge, but must take a new path that seeks to release the human potential within us all. Maria Montessori

This interactive Workshop is open to teachers, classroom assistants, students and anyone interested in teaching 6-12yrs Mathematics using the methods and materials based on Dr Maria Montessori’s philosophy. There will be detailed instruction and opportunities for practice with the specialized equipment which assists the child’s understanding of Mathematics for this age group. Sessions will also provide opportunities for gathering and sharing information and ideas.

The Montessori approach

- meets the tendency for repetition
- provides essential skills
- builds confidence
- assists children to independence
