3-6 YRS MATHEMATICS WORKSHOP - BRISBANE
5 & 19 JULY, 5 & 6 SEPTEMBER 2014

Education .... should no longer be thought of as imparting knowledge, but must take a new path that seeks to release the human potential within us all. Maria Montessori

This interactive Workshop is open to teachers and student teachers interested in teaching 3-6yrs using the methods and materials based on Dr Maria Montessori’s philosophy. There will be detailed instruction and opportunities for practice with the specialized equipment which assists the child’s understanding of Mathematics for this age group. Sessions will also provide opportunities for gathering and sharing information and ideas.

The Montessori approach

• *meets the tendency for repetition*
• *provides essential skills*
• *builds confidence*
• *assists children to independence*

The presenter, Eva Nislev, has worked with many different age groups, from children as young as 2½ to adults in their 70’s in a variety of capacities ranging from Montessori centre director, early childhood consultant, workshop presenter, tutor and lecturer. She has presented at Montessori conferences both in Australia and overseas. Eva holds a Master’s Degree in Education with a focus in early childhood education, a certificate in special education, MWEI (Aust) Diploma 3-9yrs and has worked in a variety of environments, including state schools, special education schools, tertiary institutions, Montessori early childhood programmes, and various government departments. She runs her own educational consulting business, Montessori Links, in addition to part-time tutoring and lecturing for a number of different tertiary organisations. Eva is a PhD candidate at USQ.
