

**6-12 YRS MATHEMATICS WORKSHOP  
MELBOURNE 27, 28, 29 & 30 JUNE & 1 JULY 2022**

Education .... *should no longer be thought of as imparting knowledge, but must take a new path that seeks to release the human potential within us all.* Maria Montessori

This interactive workshop is open to teachers, classroom assistants, students and anyone interested in working in a Montessori educational environment with children using the methods and materials based on Dr Maria Montessori's philosophy. There will be detailed instruction and opportunities for practice with the materials which assists the child's understanding of Mathematics for the 6-12yrs age groups. Sessions will also provide opportunities for gathering and sharing information and ideas.

The Montessori approach

- *meets the tendency for repetition*
- *provides essential skills*
- *builds confidence*
- *assists children to independence*

The presenter, Hali Halphen, was introduced to Montessori Philosophy and Pedagogy when her four children were educated at Montessori Schools in Sydney and Melbourne. She started her working life as a medical doctor, with an interest in Public Health and Preventative Medicine. A move interstate gave her a chance to rethink her career and as she had grown very interested in Montessori it was a chance to make a very easy transition to teaching. After achieving a Montessori Institute Graduate Diploma (6-12 years) she worked as a Cycle 3 teacher, then as a Curriculum Coordinator and with students with additional learning needs. Hali is currently completing a Masters in Education Policy and is also a Montessori Institute examiner and tutor.
