

6-12 YRS GEOMETRY – WAIRARAPA 12, 13, 14 & 15 JULY 2022

Education should no longer be thought of as imparting knowledge, but must take a new path that seeks to release the human potential within us all. Maria Montessori

This interactive workshop is open to teachers, classroom assistants, students and anyone interested in working in a Montessori educational environment with children using the methods and materials based on Dr Maria Montessori's philosophy. There will be detailed instruction and opportunities for practice with the materials which assists the child's understanding of Geometry for the 6-12yrs age groups. Sessions will also provide opportunities for gathering and sharing information and ideas.

The Montessori approach

- *meets the tendency for repetition*
- *provides essential skills*
- *builds confidence*
- *assists children to independence*

The presenter, Seetha Ganesan, Montessori Institute tutor, first came across Montessori philosophy of education while doing her Teacher's Training Diploma and it was the style of education that immediately appealed to her. She got a position in a Montessori classroom and started her training with MWEI. She has been teaching for 26 years and has had the opportunity to teach in Montessori classrooms in all three cycles.
